"New trends on language teaching and learning methods"

The I International Congress on Research and Pedagogical Innovation invites you to discuss and reflect on current research trends on foreign language teaching and learning, and new types of collaboration among academics and practitioners from a wide range of educational settings that explore a rich and diverse view on ELT/EFL/ESL policies and practices.

Main speakers:

Julián de Zubiría Samper
Colombia

Joshua James Zwisler
Australia

Jermaine Sylvester McDougald
United States

Objective:

Objective: To challenge and encourage creative minds to explore the emerging trends in research and pedagogical innovation in EFL/ESL contexts in order to find meaningful ways of applying them in everyday professional activities.

Index: Authors' papers will be submitted to "Revista Lenguaje" indexed in:

Research lines:

- Innovative practices in language teaching.
- Learning development in EFL settings.
- Current research trends in applied linguistics.
- Bilingual education.
- Content and Language Integrated Learning CLIL.
- ICT in language teaching and learning.
- Rethinking evaluation practices in EFL.

- 21st Century competences in language teaching.
- Curricular design and evaluation of B.A programs.
- Curricular design and evaluation of B.A programs.
- Teaching to young learners.
- English literacy development.
- English for Specific Purposes.

Para participantes no hablantes del inglés:

- Desafíos en la educación colombiana.
- Competencias del siglo XXI.
- Investigación educativa.
